Secondary Co-Curricular

At Matthew Flinders Anglican College, we are committed to providing a holistic education for our students from Prep to Year 12. Through our extensive co-curricular program, students have rich and diverse opportunities available to them beyond the classroom curriculum. As a result, they are able to explore and recognise their character, contribution, academic excellence and leadership. These are key components of The Flinders Way.

The Secondary School offers students a range of co-curricular activities to be involved in each year. The following pages list the music, sport, cultural and service activities that are expected to be offered in the Secondary School in 2025.

Timetables and activities are subject to change.
